

Bidcorp UK gender pay gap report 2021

Foreword

Welcome to Bidcorp UK's Gender Pay Gap Report for April 2021. Bidcorp UK works within the warehousing and distribution sector where female representation is traditionally low. Against this backdrop, we have implemented a variety of activities in the last 12 months that aim to attract, promote and retain a progressively diverse workforce. Further details are included in our "taking action" section.

We are pleased with the progress shown in the figures so far.

Our legal entities are:

- BFS Group Limited trading as Bidfood
- 3663 Transport Limited
- Bidfresh Limited

I can confirm that the information contained in this report is accurate.

Heather Angus

People & Sustainability Director

26.92% of women received bonus pay

Understanding the **gender pay gap** and taking action to close it

We are committed to gender equality in our business and have taken various actions to support it which include but are not limited to:

- Widening our talent pools to increase diversity by working with a greater breadth of organisations including social enterprises, not for profit organisations and new recruitment agencies to support our recruitment.
- Ensuring we provide opportunities for flexible working to attract and retain our people.
- Centralising the management and co-ordination of our recruitment activities across the UK to ensure quality, consistency and equity in our approach.
- Launching our recent “Day in the Life of a Driver” recruitment video which highlighted female drivers in our workplace, encouraging more to apply in this under represented area.
- Using labour market insights to benchmark our people demographics so that we can identify areas of focus going forwards.
- Ensuring our workplace is inclusive and supporting with activities such as our menopause support group who provide input to strategic project work on the menopause in our health and wellbeing strategy.
- Continuing to be a corporate sponsor of Catalyse Change, a social enterprise that aims to equip girls and young women with the confidence and skills for ‘healthy, happy and green’ communities, careers and planet.
- Developing and launching salary bands and career path progression in our Bidfresh business.
